REMARKS \_\_\_\_\_

**EVALUATE**

50X1-HUM

1. It was observed that an improvised airfield had been constructed about 3,300 feet northeast of BURG (N 55° E). The field is about 1,300 x 1,600 feet. There are no buildings or technical installations. Four aircraft of the type "PO-2" landed at the field and shortly took off again.

50X1-HUM

2. PO-2s made an intermediate landing. jeep was observed at the field.
3. large Soviet troop units are stationed in a woods south of the airfield.

Comment: It is assumed that the improvised airfield was constructed for maneuvers which were held in the area.

Comment: This is the first information on the existence of a new improvised airfield northeast of BURG. The report is considered credible since aircraft were landing at the BURG area in connection with the maneuvers held in the ALTENGRABOW area.
